We are so glad that you are considering attending the 2016 PAEA Conference. Every effort was made to ensure this conference schedule is accurate. However, it is subject to change and you will receive a final copy of the schedule in the form of a conference program when you arrive at the conference. A finalized pdf copy of the schedule will be available for your smart phone approximately two weeks prior to the conference. You will be able to download this from our conference website: www.paeaconference.org/. Ticketed events are either free or require payment. You may purchase tickets or reserve your free tickets through RegOnLine when you register for the conference. You may purchase any remaining tickets to events on site at the Conference Registration Desk.

Keynote Session Speaker: Lily Yeh

Lily Yeh was born in China and grew up in Taiwan, then came to the U.S. and studied art at the University of Pennsylvania, where she received an MFA. After teaching at the University of the Arts for nearly three decades, she left academia and made her mark through pioneering work in building communities through art. Lily's artistic practice brought her to an inner city neighborhood in North Philadelphia in the mid-eighties where her collaborative process created hope and beauty in a forgotten community and formed the basis of her continued involvement with one of the poorest sections of the city. She co-founded The Village of the Arts and Humanities (1986 – 2004) and helped it grow into a multifaceted organization that transformed its blighted neighborhood into a vital place of unique beauty. Lily also started Barefoot Artists, a non-profit organization that brings the transformative power of art to the most impoverished communities in the world. Her projects have taken her to places in the Americas, Europe, Africa, the Middle East and Asia, where she creates art with people — using collaborative creative art-making processes through which healing and transformation take place. First Friday Events with Shuttle Service

The fates have aligned to make this year’s PAEA conference coincide with one of Philadelphia’s most vibrant cultural events — First Friday! On the first Friday evening of every month art lovers from all walks descend upon the streets of Philadelphia Old City to take advantage of great history, 40–plus diverse galleries, and impromptu art performances. No other conference events are planned at this time, because this is your opportunity to get out and experience the authentic street life and unique pulse of Philly’s art community. You will gain inspiration and fresh ideas from our art scene to take back to your classroom and catch a first hand glimpse into the issues contemporary Philadelphia–based artists are contemplating in their work. First Friday provides a casual atmosphere where you can encounter great art and mingle with great people.

PAEA will provide shuttle access and maps to help get you to the First Friday destinations quickly, safely and easily. We’ll also give you a brief description of the personality of each neighborhood to help you choose your own art adventure in the City of Brotherly Love! Most galleries can be found between Front and Third Streets, and Market and Vine Streets and will be open from 5:00 – 9:00 PM. Look for more details as they unfold on our conference website and in the final published program when you arrive at the conference. Photo by B. Krist for VISIT PHILADELPHIA®.
Friday, October 7 — First Friday Workshop Options with Shuttle Service

Additionally on Friday night, workshops at nearby museums and schools will also be available to conference attendees. Reserve or purchase tickets for these workshops when you register for the conference. You may purchase any remaining tickets to these events at the Conference Registration Desk between 7:30 AM – 4:00 PM.

Saturday, October 8, 4:00 – 4:50 PM — Keynote Session

Stewart Auditorium

**Keynote Session Speaker: Eiko Fan**

Eiko Fan grew up in a creative atmosphere with artists–parents. Her father was from Taiwan and her mother was from Tokyo where Eiko was born. Japan has a great tradition of wood carving in Buddhist temples and as a young adult, Eiko chose to pursue sculptural art. Curious about America, she studied art at the Pennsylvania Academy of the Fine Arts then traveled around Europe on a scholarship, eventually returning to Philadelphia where she continued her studies at the University of Pennsylvania. She created a performance work of art called *Live Wood Sculpture*, mixing pantomime, dance, music and wood sculptures. The performance was shown in many venues in Pennsylvania, New York, and Scotland. Eiko uses her art to enhance the lives of people with disabilities. She created an art program at HMS (Home of the Merciful Saviour) School for Children with Cerebral Palsy where children with limited body movements paint with a foot, a head movement or just one finger. Additionally she has taught a class for over 28 years at the Philadelphia Museum of Art where students who cannot see thrive on being able to create art independently. Eiko’s motto is “Art is Food – Everybody Needs It.” See full biography: [http://www.paeaconference.org/2016-keynotes/](http://www.paeaconference.org/2016-keynotes/)

Saturday, October 8, 6:00 – 9:00 PM — Dinner at Moore College of Art & Design — Great Hall

Join us for a delicious meal followed by an interactive MakerSpace facilitated by Josh Burker. The casual dinner will include two drink tickets. Participants will explore the bits to atoms workflow made possible through such tools as Turtle Blocks, Tinkercad, Inket Printers, 3D printers, laser cutters, clothes irons, and digital cameras. Emphasis is placed on experiential learning, debugging, collaboration, and mucking around with mathematics in the search for personally meaningful designs. Participants will emerge from the workshop with iron–on designs, STL files for 3D printing or laser cutting, photograph jpegs, and LogoTurtle drawings. All mechanics and materials will be provided.

**MakerSpace Hands–On Event Organizer — Josh Burker**

Josh is a constructionist educator, author; digital artist, amateur programmer; husband, father, and curmudgeon. A fellow at the annual Constructing Modern Knowledge Institute, Josh has taught and worked in technology in both public and private schools for the past 16 years and now writes books and consults on educational projects that he finds inclusive and disruptive. During the 2015–16 school year he established an after school Logo programming club for inner city students to create knowledge about Logo programming, fabrication, electronics, and art. Students programmed algorithmic designs; created t–shirts; learned how to use and maintain a 3D printer; transformed their designs into 3D printed artifacts; assembled the electronics for a Logo–based robot; 3D printed the robot’s body; and launched in depth mathematical explorations as they created beautiful ink drawings from their procedures. ### Sunday, October 9, 12:00 – 12:50 PM — Keynote Session

**Keynote Session Speaker: Ben Volta**  
Creating intricate public murals and sculptures, Ben Volta works within the fields of education, restorative justice, and urban planning. His practice stands on the belief that art can be a catalyst for change, within individuals as well as the institutional structures that surround them. Volta earned a certificate in sculpture from the Pennsylvania Academy of the Fine Arts in 2002 and BFA at the University of Pennsylvania in 2005, that included substantial graduate coursework in Art History and Design Education. For the past 12 years, Ben has been developing a participatory art-making process that builds upon partnerships with Philadelphia and other public schools, art organizations and communities. He has worked in over forty-five schools on hundreds of projects, which have focused on skill alignments and the integration of art with math, science and reading. A 2015 Pew Fellow, the Cultural Programs of the National Academy of Science has recognized his work in several publications and has placed twenty works on permanent display at the Keck Center in Washington, D.C. He recently completed a large percent of the art sculpture at a youth detention center in Anchorage Alaska, he is in the process of working with New Jersey Transit on large glass artworks for Cranford Train Station in Northern New Jersey, and he works extensively with the City of Philadelphia Mural Arts Program. As a young artist he was a member of the ground-breaking art collective Tim Rollins and K.O.S. in NYC.
